

SUPPORTING HEALTHIER WORKOUTS THROUGH **STERAMIST**® DISINFECTION

Regularly disinfecting fitness center surfaces is vital for building the trust of your members, separating yourself from the competition, and ensuring that members get the most out of their memberships by minimizing the risk of cross-contamination on previously-used equipment such as MRSA.

Utilizing ionized Hydrogen Peroxide (iHP™) - a non-caustic, chlorine and bleach-free fog - SteraMist® treatments can effectively disinfect a facility at any time with TOMI™ Service Network providers.

Whether a routine disinfection or emergency disinfection, a TOMI™ Service Network (TSN™) provider can be deployed at a moments notice. Let TSN™ give you an advantage with a new standard of disinfection in your fitness facility.

- The ultimate tool for elimination of bacteria & viruses such as **Staph, MRSA, Norovirus, H1N1, C. difficile** and **salmonella**.*
- Formulated to be bleach & chlorine free.
- Goes above, beyond, under and around disinfecting sprays and wipes.
