HEALTHCARE

ADVANTAGES OF STERAMIST[®] DISINFECTION OVER HALOSIL[™] HALO FOGGER

SteraMist[®]

Converts a low-percentage Hydrogen Peroxide into a Hydroxyl Radical.

Residual oxygen and humidity causes no potential health risks.

Can effectively be used around sensitive electronics.

Surface Unit

5 seconds/ft²
7-minute contact time.

Environment System

45 minutes before aeration.
(3,663.7 ft³/104 m³)

Halosil[™] HALO Fogger

Nebulizers that disperse a solution of Hydrogen Peroxide and Silver.

Silver residue in treated space never leaves the environment and poses unknown risks for staff/patients.*

Silver residue builds up over time and has negative effects on medical equipment.

Minimum of 3 hours and 45 minutes for treatment, plus one hour of aeration.
(2,600 ft³/75m³)

Cannot be used in rooms higher than 8 ft and less than 1,100 ft³.

User manual recommends treated room to remain unoccupied overnight for safety and maximum efficacy.

SteraMist®

Halosil™ HALO Fogger

No risk of corrosion to metals.

Low relative humidity dependency.

Surface Unit

Handheld application method gives users the freedom to easily manipulate and treat all sides of desired objects.

Environment System

Flexibility to treat multiple spaces simultaneously. Three applicators can each be used in handheld (direct spray) mode in addition to fogging.

Surface Select Unit and **Environment System** is able to run multiple cycles automatically without any interaction from the user, allowing the user to customize contact times.

Surface Select Unit and **Environment System** features the ability to adjust flow and air directly on the unit, no external accessory required.

Moderate risk of corrosion to metals.

Below 50% humidity recommended.

Only able to treat one space at a time with no hand-held applicator, resulting in an inability to treat obscured areas not open to the air.

Unable to run multiple cycles without manual input between each cycle.

EXT™ accessory required to lower fluid output and treat a wider range of spaces.

CLEAN. DISCREET. EFFECTIVE.
